

City of Grandview – Development Regulations Update

April 2016

Concurrency:

TITLE 14 ADMINISTRATION OF DEVELOPMENT REGULATIONS

14.10.100 Project review.

A. Certificate of Concurrency.

1. A concurrency evaluation shall be completed by the administrative official at the time a development permit is applied for or during the course of permit review. The administrative official shall conclude the review by either determining the proposed project does not meet LOS standards, or is exempt from concurrency review, or meets LOS standards whereby a certificate of concurrency shall be issued and attached to the development permit application. A proposed project that does not meet LOS standards shall be prohibited unless mitigation methods, as described in GMC 14.10.110, are implemented to meet LOS standards.

2. The permit applicant shall provide the city with all information and applicable fees required by the administrative official to complete a concurrency evaluation on the proposed development. It shall be the responsibility of the applicant to provide studies, surveys, traffic counts, engineering reviews or any other items of information determined to be necessary for an accurate concurrency evaluation.

3. A certificate of concurrency shall be accorded the same terms and conditions as those for the underlying development permit. If a development permit time line is extended, the certificate shall also be extended for the same time duration. A certificate of concurrency shall be valid only for the development permits approved for the same parcel and is transferable to any new owners of the parcel in which it was issued.

4. A certificate of concurrency shall expire simultaneously with the expiration or city revocation of the development permit for which it applies. In the absence of a development permit expiration date, the certificate of concurrency shall expire one year from the time the development permit was issued.

5. An applicant may request a preliminary permit application meeting with the administrative official to discuss potential concurrency requirements prior to formally applying for a development permit or permits.

B. Traffic Impact Calculations.

1. Trip Generation. Traffic calculations shall be based on the trip generation averages described within the latest available edition of the Institute of Transportation Engineers (ITE) Trip Generation Manual for the particular type and extent of the development being proposed.

2. Concurrency Test. The projected number of trips generated by a proposed development shall be subtracted from available capacity of the impacted transportation facility. If projected demand is less than available capacity, the project is not adverse to level of service standards and shall be issued a certificate of concurrency.

3. Area of Impact. At a minimum, the area of impact used to determine concurrency shall be the following distances beginning at the point of access of the development to the nearest point of the affected transportation facility:

a. Residential development:

i. Ten dwelling units or less: one-quarter mile;

ii. Eleven to 50 dwelling units: one-half mile;

iii. Over 50 dwelling units: one mile.

b. Nonresidential development:

i. Up to 100 vehicular trips: one-quarter mile;

ii. One hundred to 500 vehicular trips: one-half mile;

iii. More than 500 vehicular trips: one mile. (Ord. 1610 Ch. 2 § 2, 2001).

Subdivision Written Findings:

TITLE 16 SUBDIVISIONS

16.12.110 Approval or disapproval by city council.

If the city council finds that the proposed plat makes appropriate provisions for, but not limited to, the public health, safety and general welfare and for such open spaces, drainageways (Stormwater retention and detention), streets, alleys, other public ways, transit stops, potable water supplies, sanitary wastes, parks and recreation, playgrounds, schools and schoolgrounds, and shall consider all other relevant facts, including sidewalks and other planning features that assure safe walking conditions for students who only walk to and from school, and the public use and interest will be served by the platting of such subdivision and dedication, then it shall be approved. The proposed plat may be disapproved because of flood, inundation or swamp conditions. Dedication of land to any public body, provision of public improvements to serve the subdivision, and/or impact fees imposed under RCW 82.02.050 through 82.02.090 may be required as a condition of subdivision approval. Dedications shall be clearly shown on the final plat. No dedication, provision of public improvements, or impact fees imposed under RCW 82.02.050 through 82.02.090 shall be allowed that constitutes an unconstitutional taking of

private property. The legislative body shall not as a condition to the approval of any subdivision require a release from damages to be procured from other property owners. Every decision or recommendation made by the city council shall include findings of fact and conclusions to support their decision or recommendation and shall be incorporated within the council minutes. (Ord. 1453 § 9, 1996; Ord. 1105 § 3(E)(5), 1984).

Preliminary Subdivision Approvals:

TITLE 16 SUBDIVISIONS

16.16.010 Generally.

A. A final plat meeting all design standards and improvements required by this title shall be submitted to the city council for approval, based on the timeline below.

1. Seven years if the date of preliminary plat approval is on or before December 31, 2014
2. Five years if the preliminary plat approval is issued on or after January 1, 2015
3. Ten years if the project is located within city limits, not subject to the shoreline management act, and the preliminary plat is approved on or before December 31, 2007.

B. An applicant who files a written request with the city council at least 30 days before the expiration of the time periods listed above may be granted one one-year extension upon a showing that the applicant has attempted in good faith to submit the final plat within the time period. The final plat shall conform to the preliminary plat design, including recommendations made by the city council. (Ord. 1453 § 11, 1996; Ord. 1105 § 3(F), 1984).
